

# CALD Outreach support for families

Our CALD Outreach officers work directly with families and Early Years services to address engagement barriers and support transition and ongoing participation in education.

- Maximising attendance at kindergarten
- Increase kindergarten enrolments for three and four-year-old children, including practical support with enrolment through the promotion of Free Kinder initiative and Early Start Kindergarten for refugee and asylum seeker children
- Increase engagement by vulnerable CALD families in other early childhood support programs available and accessible in their local area, for example Maternal and Child Health and playgroups
- Successful transition support for children who have commenced school in 2021

If you have a family who wish to engage with your service, please contact:
