

# Did you know your child has an Individual Plan on StoryPark?

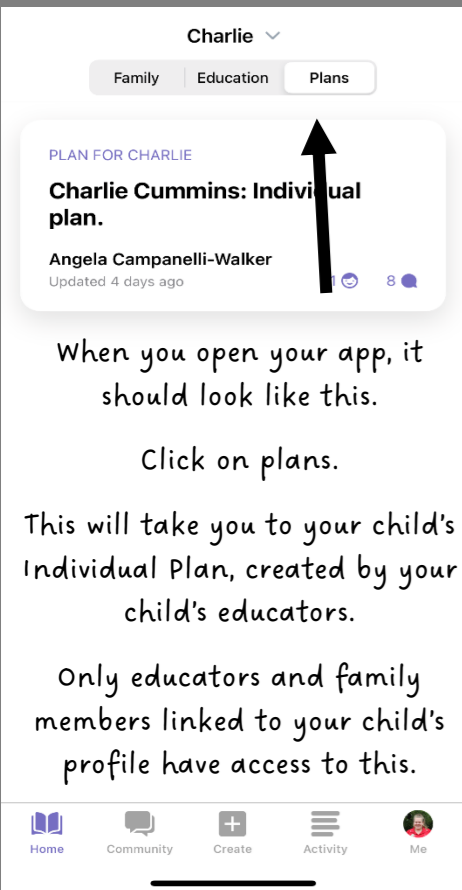

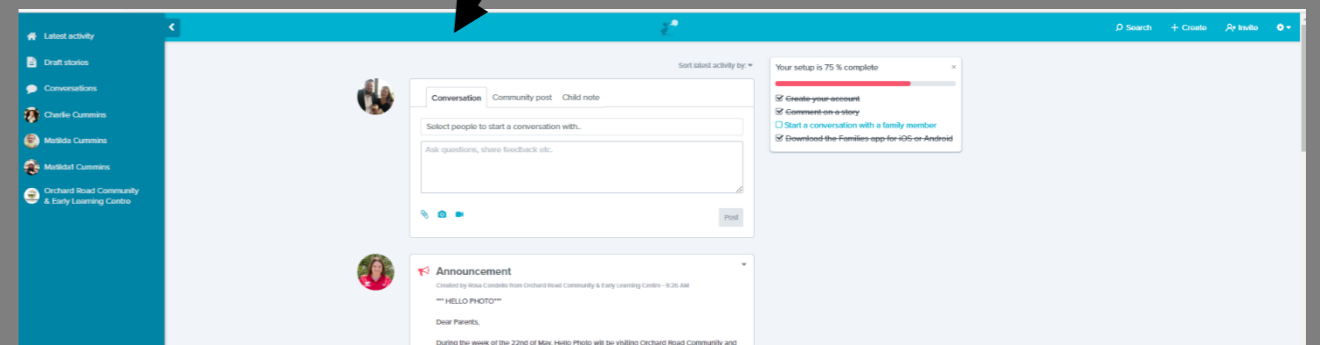

You can access this through the story park app or your web browser.

When using the APP, you can find your child's plan by following the steps below

Download and open the Storypark for families app.

Alternatively, if using the web browser, it will look like this.

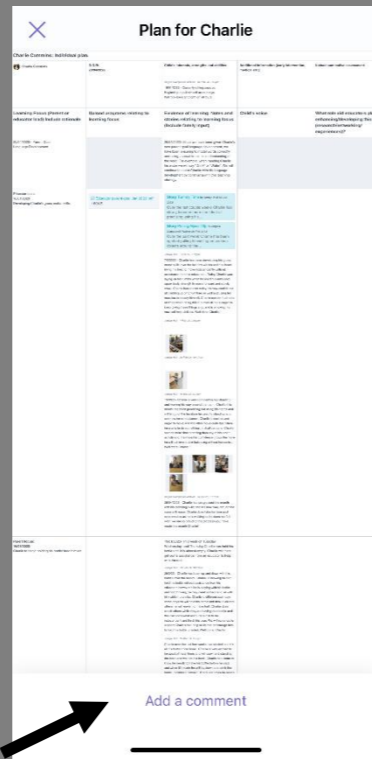

When you open your app, it should look like this.

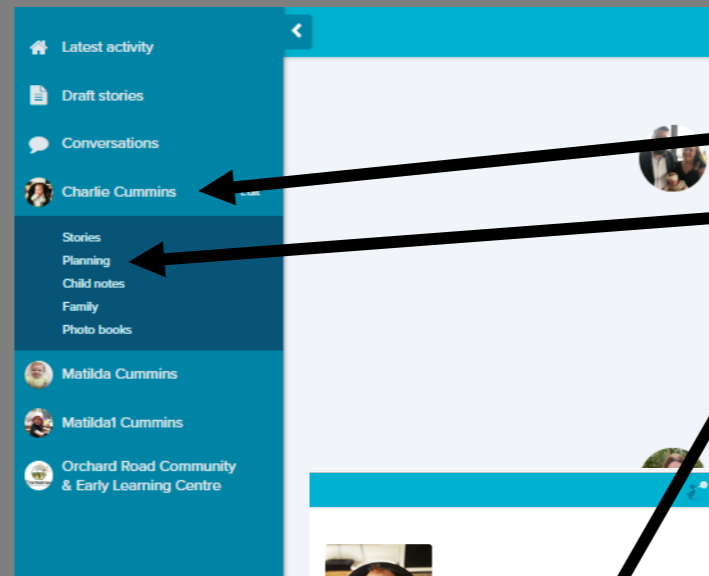

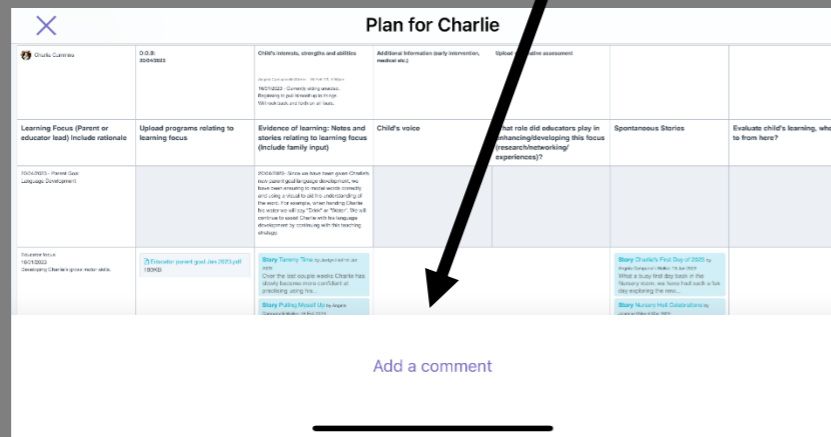

Click on plans.

This will take you to your child's Individual Plan, created by your child's educators.

Only educators and family members linked to your child's profile have access to this.

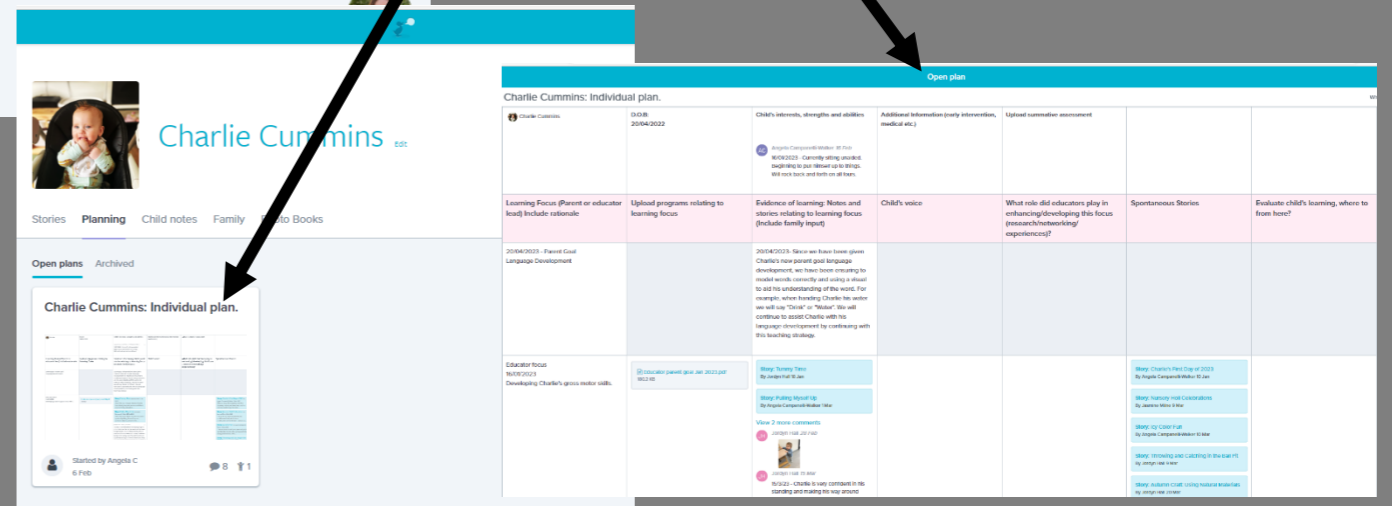

You can comment on the updates provided on their current Parent/educator Focus's.

When you click your child's name a menu will drop down.

Click on planning and preview of your child's plan will appear. Click on it to open, read, and add comments.

Your involvement in our programming is invaluable to ensure we are working together to further enhance their development in all areas!
